

BRUNSWICK

PUBLISHING RESOURCES

About Brunswick Publishing Resources

Expertise matters.

Brunswick is a full-service book development firm that delivers editorial development, production, and project management services to educational publishers. Our creative professionals draw on 20+ years of experience in their respective fields and in-depth knowledge of the industry to produce the highest quality educational materials for grades K through 12. As needed, we also bring together the best resources available in the areas of photo research, indexing, and fact-checking to provide our clients with comprehensive publishing solutions.

The whole really is greater than the sum.

In addition to providing top-notch editorial and production services, Brunswick excels at project management, overseeing development from concept through publication. With an emphasis on responsiveness, flexibility, and innovation, we're committed to managing each project creatively, efficiently, and cost-effectively. That means delivering the sum total of all the details—from supervising work flow to tracking budgets, from interfacing with publishers and vendors to integrating curriculum guidelines, from overseeing file management to managing quality at every stage.

Serving the Industry's Leaders:

- Macmillan/McGraw-Hill
- Glencoe
